

Heavy Duty Deep Cleaner

PRODUCT CODE R26

enviromose™

- POWERFUL AND EFFECTIVE DEGREASING CLEANER
- FOR USE ON CONCRETE, STONE, MARBLE, TERRACOTTA, TILING AND PAVING
- DOES NOT ALTER THE APPEARANCE OF SURFACES BEING TREATED
- CONCENTRATED AND BIODEGRADABLE
- FAST ACTING AND EASY TO USE

Enviromose Heavy Duty Deep Cleaner is a powerful and effective degreasing cleaner. Deep Cleaner will remove stubborn greasy stains and soiling caused by atmospheric and industrial pollution. Formulated with biodegradable components, Enviromose Heavy Duty Deep Cleaner is ideal for horizontal substrates (floors, paved ground surfaces) and can be used on various indoor and outdoor surfaces (concrete, cement, natural and artificial stone, terracotta, tiling, stoneware, marble, PVC etc).

APPLICATION

- Always test on a small hidden portion of the substrate before applying to check compatibility and performance
- Can be used neat on heavy contamination or can be diluted by adding 1 part product with up to 10 parts water depending on the staining to be removed
- Use a low pressure hand spray unit or brush. Apply the Deep Cleaner liberally and allow to act for 1-2 minutes for lightly soiled surfaces or 5-10 minutes for heavily soiled surfaces
- For removing deep penetrating lubricating oil and stains, it may be necessary to apply the product twice allowing 10 minutes between applications
- Whilst the surface is still wet, thoroughly rinse with a high pressure water jet at 80-100 bar
- For optimum results use hot water at around 80°C, and vacuum up using a wet and dry vacuum

COVERAGE

4-5m² per litre dependent on the porosity of the surface.

CLEANING

Clean tools and equipment immediately after use with water.

STORAGE

24 months from the date of manufacture in original unopened container in a clean, dry area. Do not store below 5°C.
