

**PROFESSIONAL ECO ACID****OVERVIEW**

R07 Eco Acid cleaner is a powerful, pro grade, acid free cleaner that does not require the neutralisation process associated with other acid or alkaline cleaners. This is a super concentrated formulation, low pH organic salt based cleaner that outperforms all other non acid alternatives

Enviromose Eco Acid removes Cement, Scale, Rust, Oxidisation, Atmospheric Contamination and Dirt. It is also an ideal surface preparation before applying any coatings.

**BENEFITS**

Easier and Safer to Use - Fast Acting - Phosphate Free  
 - Biodegradable - Water rinsable - Multiple Use - No VOC - Low Odour - Minimal Fumes - Effective salt based alternative to HCl - Replaces HCl and Sulphuric Acid

**APPLICATION**

Depending on the level of soiling, the product can be used neat or it can be diluted. Dilution depends on the soiling, recommend dilution up to the ratio of 1:5 with water.

Apply the product using a brush or a garden sprayer.

Re-apply after 5 minutes

Leave until the product penetrates the contamination which can take from 5 - 10 minutes depending on the level of soiling.

Agitate with a stiff brush and rinse with clean water or wash down with a power jet.

Re apply if contamination persists

**PRODUCT CHARACTERISTICS**

Colour	Clear Amber Liquid
Odour	Characterteristic
Form	Liquid
PH	1
Solubility in Water	100% Soluble
Shelf Life	24 months from the date of manufacture in the original unopened container
Coverage	1 litre = 4-6 m <sup>2</sup>

**PRECAUTIONS FOR USE**

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS)

**CLEANING OF EQUIPMENT**

Clean tools and equipment immediately after use with water.
