

CLEAN + SEAL

Nano Clean and Protect

An all in one cleaner and protector

Nano Clean and Protect is a multi purpose cleaner with easy clean benefits for a huge variety of surfaces. It repels dirt and stains through temporary hydrophilic surface modification.

Important

Always test on a small hidden portion of the surface to be cleaned to check compatibility and performance before commencing with the whole area DO NOT apply to hot surfaces or in strong direct sunlight.

Surface Preparation

Test a small area before use, to ensure the final result is satisfactory. Remove surface contamination. All algae and mould should be treated and removed using Algae Remover. Ensure surface is dry before application.

Precautions for use:

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).

How to use:

Ready to use product, do not dilute

1. Shake the container, spray liberally on to the surface
2. Buff off the surface using a lint free cloth, ensure no contamination remains.
3. Repeat the process if surface contamination still remains

Storage

KEEP OUT OF THE REACH OF CHILDREN.
Store in a cool, well ventilated area. Keep container tightly closed. Storage temperature between 8°C and 30°C.

Cleaning of Equipment

Remove as much excess product as possible and clean tools and equipment immediately after use with soapy water.

Perfect for use on:
