

Anti Bacterial Maintenance Cleaner

- CONCENTRATED, NEW GENERATION ALL SURFACE CLEANER
- FOR INTERNAL AND EXTERNAL USE
- CLEANS A HUGE VARIETY OF SURFACES
- DOES NOT CAUSE DETERIORATION OF SURFACES
- BIODEGRADABLE

Enviromose Anti-Bacterial Maintenance Cleaner is a highly concentrated, new generation, all surface cleaner which will outperform current products that contain caustic soda and other caustic alkali, which damage the surface as well as causing future problems such as corrosion, more frequent maintenance cycles and surface deterioration.

USES

- Paint preparation • Degreaser • PVC cleaner
- Treated surface maintenance cleaner • Removal of grout blooms
- Garden furniture cleaner • Path and driveway maintenance cleaner
- Cladding • Food preparation areas

APPLICATION

- Shake the container well before use and dilute as indicated below:

Light soiling:	1 part: 40 of water
Medium soiling:	1 part: 25 of water
Heavy soiling:	1 part: 5 of water
Extreme soiling:	1 part: 1 of water
As a daily cleaner:	1 part: 50 of water
- Apply evenly and generously. Do not allow treatment to dry out
- Leave until product penetrates the dirt and soiling (5-30 minutes)
- Agitate with a firm bristle brush and rinse or wash down with clean water
- To use as a maintenance cleaner for floors and walls, dilute with warm water then simply mop on and mop off 2 minutes later
- Do not apply during rain, frost, or when surface and air temp is $<5^{\circ}\text{C}$ & $>30^{\circ}\text{C}$
- Do not mix with any other product

COVERAGE

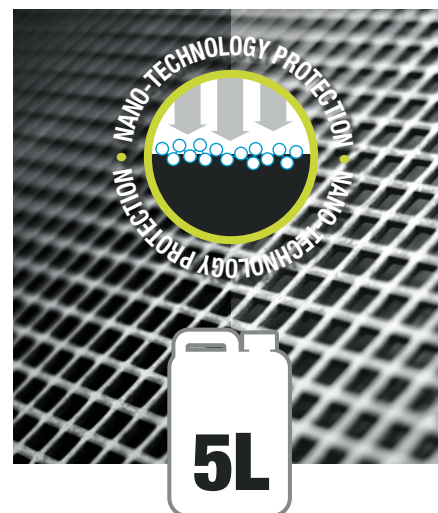

4-5m² per litre dependent on the porosity of the surface.

CLEANING

Clean tools and equipment immediately after use with water.

STORAGE

24 months from the date of manufacture in original unopened container in a clean, dry area. Do not store below 5°C.

WARNING
