

HIGHLY CONCENTRATED Hard Surface Cleaner

Degreaser Highly Concentrated Cleaner is a water based, easy to use cleaner suitable for most surfaces.

For regular use, this high performance cleaner is both acid free and non caustic ensuring the appearance of the surface is not altered or damaged.

Special wetting and water softening agents help minimise water marking and streaks on smooth and non absorbent surfaces.

How to Use

Always test on a small hidden portion of the surface to be cleaned to check compatibility and performance before commencing with the whole surface. Shake the container well before use and dilute with warm water as follows -

Light contamination/general maintenance 100 to 200ml in 5 litres of water
Heavy contamination/intense cleaning 300 to 400ml in 5 litres of water

- Mop or spray on the surface to be cleaned and leave for 5 minutes
- Agitate with a soft brush and rinse clean, **DO NOT LET THE PRODUCT DRY OUT.**
- If the product does dry re-apply prior to completing the next step
- Use a microfibre mop/cloth to polish before any remaining water marks dry

For use as a daily maintenance cleaner

- Add 20ml to 75ml clean warm water and pour into a spray bottle
- Spray an even coat, allow to work for 1 minute
- Buff with a dry microfibre cloth

Surface Preparation

Always test a small hidden portion of the substrate before use, to ensure the final result is satisfactory and to calculate consumption. Do not apply during rain or frost and when surface air temperature is <math>< 5^{\circ}\text{C}</math> and $> 30^{\circ}\text{C}$.

Important

Brush away leaves, debris, moss and other debris from the surface prior to treating. Keep children and pets away until cleaning process is complete and surface is dry. Do not apply in damp/wet conditions or if rain is expected within 24 hours of application. Do not apply in direct sunlight or below 5°C. Rinse well or the dirt remnants will leave marking.

Precautions for use:

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).

Storage

Keep out of reach of children. Keep in a dry place between 5°C and 30°C in the original container.

Benefits:

- High performance cleaner for all types of surfaces
- Water based
- Acid free
- Non caustic
- Fast acting
- Biodegradable
- Easy to use

Product Characteristics

Colour	Clear
Odour	Barely Perceptible
Form	Liquid
Application Temperature	Between 5°C and 30°C
Shelf Life	24 Months from the date of manufacture in the original unopened container
PH	8
Specific Gravity @ 25 °C	1.00

Cleaning of Equipment

Remove as much excess product as possible and clean tools and equipment immediately after use with soapy water.
