

HIGH PERFORMANCE

All Purpose Interior Cleaner

A highly effective multi purpose cleaner that will make upholstery, fabrics and interior trims feel like new

Our professional grade, multi-purpose interior cleaner will effectively eliminate odours and bacteria with its unique formulation, whilst providing a safe and effective method to remove any unwanted contamination from all interior surfaces.

How to Use

Remove loose surface contamination by hoovering well prior to application

Shake the product well and do not dilute

- Apply liberally, working in to the surface using a soft brush or cloth. Allow the product to work for 1-6 minutes, depending upon the level of surface contamination
- Using a clean, absorbent cloth, dampen it with water and wipe away the excess solution and dirt. For optimum results use an extraction machine with clean water
- Repeat the process if necessary, some forms on contamination may require more than one application. For easier and more effective cleaning, proceed to apply Dirt Defence Fabric Protector

Important

Always test on a small hidden portion of the surface to be cleaned to check compatibility and colour fastness before commencing with the whole area. Do not apply to hot surfaces. This product is not suitable for delicate materials such as suede or alcantara.

Cleaning of Equipment

Remove as much product as possible from application equipment before cleaning. Clean tools and equipment immediately after use with water.

Precautions for use

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).

Benefits

- Will not damage interior surfaces
- pH Balanced
- Removes dirt and grime with ease
- Clean and fresh finish
- Concentrated
- Solvent free
- Biodegradable
- Antibacterial properties
- Eliminates odours

Product Characteristics

Colour	Amber
Odour	Fresh
Form	Liquid
Application Temperature	Between 5°C and 25°C
Shelf Life	24 Months from the date of manufacture in the original unopened container. Do not store below 5° c. Keep out of the reach of children.
PH	7
Specific Gravity @ 25 °C	1.00
