

## HIGH PERFORMANCE

# Hybrid Detailer

Our advanced hybrid detailer will clean light contamination whilst providing depth and gloss to the paintwork, leaving a high shine finish that will help to repel dirt and contamination

This high performance formulation will remove dirt, whilst providing a high shine protective layer to paintwork and exterior trims. The dual action formula will add depth and gloss, whilst providing an effective layer of protection to help keep the car cleaner for longer.

### How to Use

#### Shake the bottle well before use

Spray a light, even coat on the area to be treated from a distance of approx 30cm

Get two microfibre cloths, use the first to spread the product, allowing a short time to dry before buffing

Proceed to buff with the second microfibre cloth until residue has disappeared.

Repeat the process on each panel, hybrid detailer can be layered and reapplied for a longer lasting finish and an advanced level of protection.

#### Cleaning of Equipment

Remove as much product as possible from application equipment before cleaning. Clean tools and equipment immediately after use with water.

#### Important

Always test on a small hidden portion of the surface to be cleaner to check compatibility and performance before commencing with the whole area. Use out of direct sunlight. Do not apply to hot or wet surfaces.

#### Precautions for use

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).

### Benefits

- Concentrated formulation
- Highly effective at protecting paint work
- Ideal for on the go cleaning
- Fills light scratches
- Hydrophobic protection
- Will not remove wax or sealants
- Removes dirt with ease
- Enhances paintwork
- PH Balanced
- Solvent Free

### Product Characteristics

Colour	White
Odour	Characteristic
Form	Liquid
Application Temperature	Between 5°C and 25°C
Shelf Life	24 Months from the date of manufacture in the original unopened container. Do not store below 5° c. Keep out of the reach of children.
PH	7
Specific Gravity @ 25 °C	1.00
