

HIGH PERFORMANCE

Pre Wash Treatment

A highly effective pre wash treatment to safely and effectively remove stubborn dirt and grime with ease. For use on wheels, paintwork and external trims.

This powerful and effective formulation will remove heavy contamination, brake dust, iron particles and grease with ease. This unique formulation allows it to be tough on dirt yet gentle with paintwork.

How to Use

Always test a small hidden portion of the substrate before use, to ensure the final result is satisfactory. Supplied ready to use, do not dilute.

Shake container well before each use. This product may remove waxes previously applied to the surface

- Spray liberally on to dry paintwork, focusing on the most contaminated areas, wheels and lower portion of the car

- Allow to act for 1-4 minutes, depending on the outside temperature and level of contamination, do not allow the product to dry on the surface

- Jet wash or thoroughly rinse the product from the vehicle, ensuring no residue is left behind. Proceed to shampoo the car following the pre wash process.

Precautions for use:

For Health & Safety instructions, first aid measures, spillages and disposal instructions, see separate Health & Safety Data Sheet (MSDS).

Important

Always test on a small hidden portion of the surface to be cleaned to check compatibility and performance before commencing with the whole area. Use out of direct sunlight. Do not apply to hot surfaces.

Cleaning of Equipment

Remove as much product as possible from application equipment before cleaning. Clean tools and equipment immediately after use with water.

Benefits

- Concentrated formulation
- Highly effective at removing dirt and grime
- Suitable for paintwork, alloys and exterior trims
- Can be used as a shampoo
- PH Balanced
- Solvent Free

Product Characteristics
